The best emits 0 grams per mile (tailpipe only). Does not include emission from generating electricity; learn more at fueleconomy.gov.</div><div>Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 28 MPG and costs \$9,500 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$0.16 per kW-hr. MPGe is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of global warming and smog.</div><div>fueleconomy.gov</div><div>Calculate personalized estimates and compare vehicles</div><div><div><div>Smartphone QR Code™</div><div></div></div></div></div></div></div> |  |                                                                                                                                                                                                                                                                                                                                                                                                                                              |  |
